Instructions for access to the online LifeCare materials and assignments will be emailed to you once payment is received. The optional personal ministry assessments can be part of the training for LifeCare, if you choose. You will be provided with an understanding into your natural tendencies for responding and interacting to your environment and people. This helps us place you in a successful ministry position that best fits your God-created design. The Assessment Tools provide a good starting point for ministry aptitude and relationship skills because it deals with the inner man first, rather than outer manifestations or problems. These tools will help you quickly identify possible "hidden" problems and ways to successfully identify unmet needs that could create stress, anxiety and conflict in your life, relationships and ministry. This helps our LifeCare team members work together in unity, knowing those who labor among us.
